DETAILED ACTION

Response to Arguments

Applicant's arguments filed with respect to claim 11 have been fully considered but they are not persuasive.

In response to applicant's argument that the device as disclosed by Pitesky would not be able to perform the same as applicants claimed invention, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Pitesky USPN 5,931,794.

Pitesky discloses a device comprising:

(Re claim 11) "a cup having a base and a side wall defining a cavity, the side wall having a rim" (46,28 figure 7). "a projection ... extending from a central region of the base and extending above the rim of the cup" (38 figure 7). "cavity forms a moat that surrounds the projection" (28 figure 7).

Art Unit: 3651

(Re claim 12) "projection is constructed as an upwardly directed blade" (32 figure 7).

(Re claim 13) "upper end of blade is serrated" (32 figure 7).

(Re claim 22) "projection is a blade having an upper end that extends substantially along a diameter of the cup and includes teeth spaced apart along said diameter" (figure 8).

Allowable Subject Matter

Claims 14-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
